PERSONAL PROJECTS

Build E-Commerce Application [Name: HP Zone]. (08/2022)
- I build a simple E-commerce application using Kotlin. In that app, there are three interfaces: opening, second primary, and last Order confirmation. It is 90% the same as other e-commerce applications.
- In this project, I used 100% Kotlin language.
- Benefit : Simple user friendly Interface. Easy to handle

Build Restaurant Billing System Using C. (04/2022)
- I created a minor project in my first semester. I used C language to create this billing system. It was my first experience applying theoretical knowledge. My college faculty appreciated this project.
- To build this project I used C language.
- Benefit : Simple Interface, easy to operate.
- GitHub - rohitrb2003/Restaurant-billing-system: My first project using C language .

Created a Shop Billing System using C++. (11/2022)
- I created a shop billing system, this system help vendor saves more time in billing, with 99% accuracy in billing, it shows the amount that customers pay and the return amount that vendor needs to give .
- 99 % accuracy.
- Time saving and Transparent (for vendors and customers)
- GitHub - rohitrb2003/shop_billing_system: My C++ project : A shop billing system used to reduce time of billing items in shop.

I am building Jarvis, An Artificial Intelligence based project. (12/2022 - Present)
- I am a big fan of Iron man movies; Their technologies are futuristic. So I see one video on YouTube and started building Jarvis using the 'PYTHON' programming language. Still, my project is not completed, but within some day's will complete the project.
- To build this project I use PYTHON programming Language.
- GitHub - rohitrb2003/Jarvis_python

SKILLS

`C` `C++` `JavaScript` `Python` `HTML`
`Kotlin` `DSA` `Front End Development`
`Good Communication` `Team Work` `Basic Cloud`

ACHIEVEMENTS

Bronze Level (2star) in C on Hacker Rank
ROHIT BHILARE - rohit_bhilare_it | HackerRank

Bronze Level (2star) in Python on Hacker Rank
ROHIT BHILARE - rohit_bhilare_it | HackerRank

45+ google cloud Badges
Rohit Ramchandra Bhilare | Google Cloud Skills Boost

CERTIFICATES

Google Developer Student Club (GDSC)
Compose Camp, In this camp, I developed an application. In this compose camp I learn about the Kotlin Language, Types of operating systems, and many more. (25) Post | LinkedIn

Building a Business Presence With Facebook Marketing (11/2022)
